Foldable Commode/Chair

Flexible Seat for Bucket & Bucket Commode

Privacy Tent
An industry leader, TravelJohn™ offers the safest, cleanest way to solve the problem of what to do when traditional restroom facilities are inaccessible, unsanitary or just plain unavailable.

Most of us don’t think about the need for personal waste disposal products or how often we need them until we really need them. However, the versatility of our TravelJohn™ products may make you question what you ever did without them.

TravelJohn™ has created a full line of complementary products to be used on their own or in conjunction with our Waste Disposable Bags, including our Foldable Commode.

IN THE HOME, IN EMERGENCIES

For instance, how would you handle waste elimination in an emergency situation? Sometimes things happen that we don’t expect: earthquakes, severe weather, or acts of terror. These events strike without warning and can cause disastrous effects including trapping us without restroom facilities or damaging our water supplies to prevent the proper use of toilets.

Improper elimination and open waste containers can cause dangerous health problems, but can be removed with the use of TravelJohn™ by placing Disposable Waste Collection products in all of your emergency and first aid kits.

IN HEALTHCARE

What about in the hospital? One of the biggest problems is the mess and difficulty involved in helping patients go to the bathroom, especially those who with limited mobility, post surgery recovery, interstitial cystitis syndrome, etc. Bed pans can be hard for the patients to use while catheters can sometimes cause patients to develop a Urinary Tract Infection (UTI). The results are often unsanitary and embarrassing for the patients.

Instead of relying on those ineffectual devices, replace them with TravelJohn™, the safe hygenic, and convenient personal waste disposable products which are the truly sanitary solution for patients.
Finally, think of all the precious spare time spent worrying about where to go to the bathroom when you should be enjoying outdoor activities with family and friends. Camping, hunting, hiking, boating, long bike rides and virtually any other outdoor activity can be made more enjoyable by eliminating the worry of “where to go”. To save even more valuable time, our lightweight Privacy Tent sets up in minutes and provides an instant restroom anywhere!

Are public restrooms safe? Think of all the facilities you’ve seen while traveling—in stores, stadiums, gas stations, restaurants, clubs... Ladies, imagine never having to sit on a public toilet ever again! Now you can use the stall for privacy and forget the unsanitary toilet. TravelJohn™ Personal Disposable Urinal Bags are compact enough to fit discreetly into almost any handbag. Just think of all the inconvenient situations you can now avoid!

ON THE ROAD, FOR HEALTH ISSUES

What about in the car? Traffic Jams, no restroom, dirty restroom, carsickness, and even overactive bladders are all good reasons to keep compact TravelJohn™ Disposable Urinal Kits in your glove box. Tissues and a resealable bag are included for quick, easy clean up.

OUTDOORS

Finally, think of all the precious spare time spent worrying about where to go to the bathroom when you should be enjoying outdoor activities with family and friends. Camping, hunting, hiking, boating, long bike rides and virtually any other outdoor activity can be made more enjoyable by eliminating the worry of “where to go”. To save even more valuable time, our lightweight Privacy Tent sets up in minutes and provides an instant restroom anywhere!

Patented LIQSORB® Technology

LIQSORB® is a patented flow management device. It is an expandable, liquid permeable, biodegradable polymer pouch, containing special anti-microbial agents. LIQSORB® turns water based solutions instantly into a gel and traps the soft gel inside a fabric pouch, creating a spill-proof, leak-proof, and puncture resistant pouch. The anti-microbial agents inhibit bacteria and fungus growth.
TravelJohn™ disposable urinal bags are convenient, uni-sexed, sanitary, personal urinals containing “LIQSORB ®”, the key ingredient that makes this work. LIQSORB ® is a combination of an exclusive biodegradable non-woven fabric pouch containing a biodegradable polymer substance that immobilizes bacterial growth quickly absorbing liquid waste and turning it into an odorless, spill-proof gel bag that is non-toxic and waste disposal safe. The Unisex adapter makes it easy for anyone and everyone to use while sitting (providing there is the use of gravity with an unobstructed, free-flowing opening or standing, and a spill guard to prevents back flow during use.

Compact
Revolutionary “bag within bag(s)” design...When folded...just slip them into your bag or into the glove compartment of the car, and you will never again need to worry about finding an accessible public toilet when you’re out and about.

Easy
Each bag is made of strong plastic, that is puncture resistant and contains our revolutionary LIQSORB ® polymer pouch that solidifies liquids instantly into a leak-proof, odorless, spill-proof gel that is non-toxic and safe for disposal in any waste bin.

Secure
With our LIQSORB ® pouch, no loose powder...and an average of two or three uses, no clean up and secure for disposal.

Leakproof, Hygienic, Odorless
No Clean up & Simply throw away!
Because no one should have to hold it in...
