TravelJohn™ Products, offers the safest, cleanest way to solve the problem of what to do when traditional restroom facilities are inaccessible, unsanitary or unavailable.

Feeling the urge? often we don't think about the need for personal waste products until we facing a dire restroom situation.

For everyone! TravelJohn™ has created a full line of complementary products to be used on their own or in conjunction with our other products.

LIQSORB Technology is a flow management device. A polymer powder, containing special anti-microbial agents turns water based solutions instantly into a gel. The powder absorbs, deodorizes and disinfects while it solidifies

In Emergencies Sometimes unexpected things happen: earthquakes, severe weather, or acts of terror. The disastrous effects of the events often include damaged restroom facilities. Lack of proper facilities often creates health hazards; however, this risk may be removed by placing TravelJohn™ disposable waste collection products in your emergency and first aid kits.

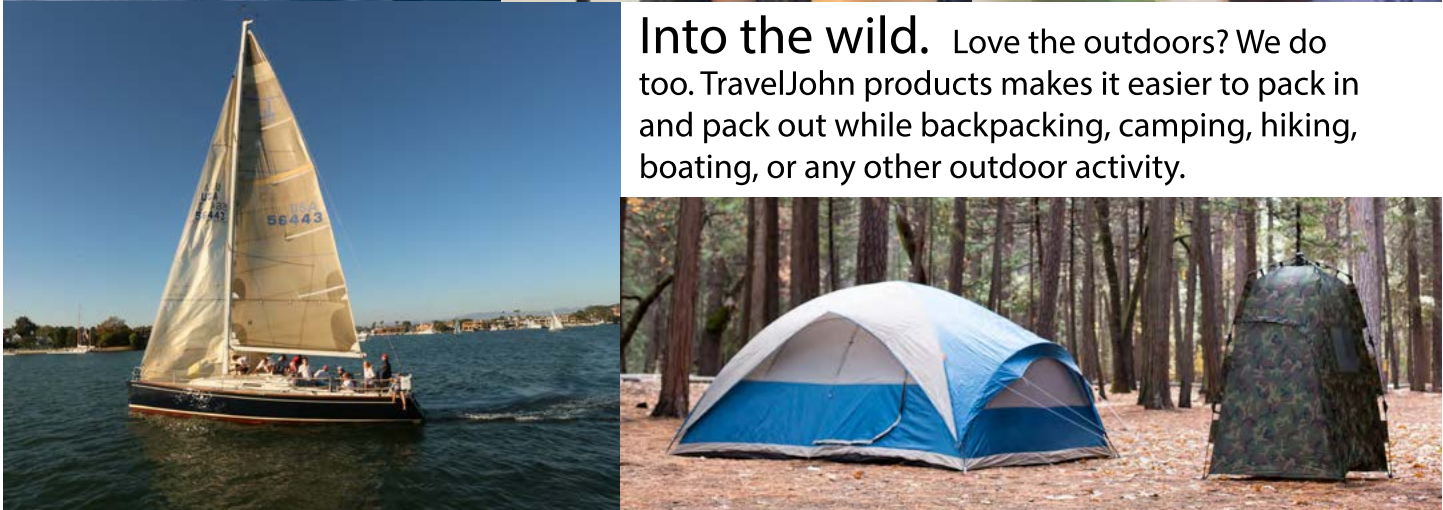

In Healthcare Often, patients in medical facilities are dealing with limited mobility and are unable to use regular restrooms. Instead, they are provided with a bed pan or intrusive and uncomfortable catheters which may cause an Urinary Tract Infection (UTI). TravelJohn products offers safer, hygienic, and convenient personal waste alternatives for all patients to use in the hospital or at home.

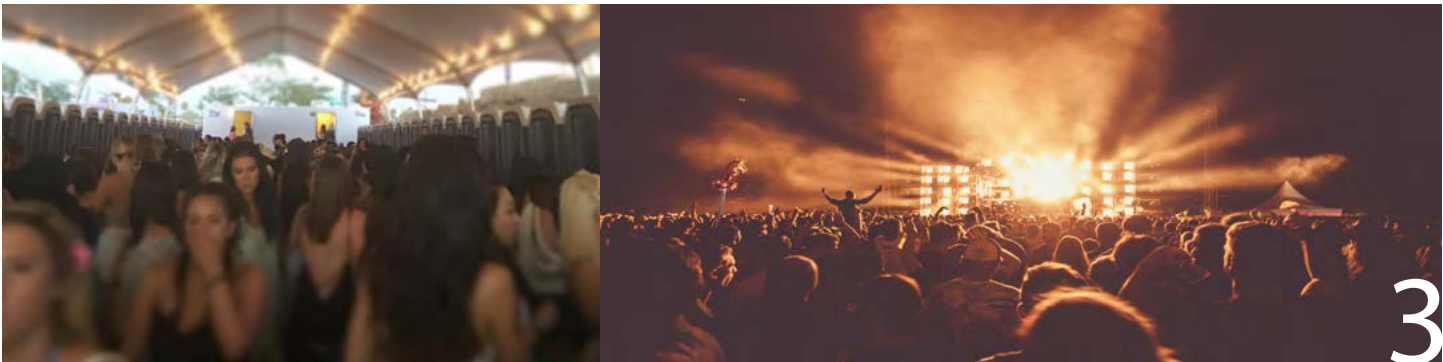

Road trip? No problem! We've all been there, stuck in some unfortunate traffic jam and really need to go. Worry no more! Toss a few TravelJohns or TravelJanes into your glove box or bag and your bladder will be happy. No more holding it in, unsanitary restroom facilities, or going in bottles!

Into the wild. Love the outdoors? We do too. TravelJohn products makes it easier to pack in and pack out while backpacking, camping, hiking, boating, or any other outdoor activity.

Music Festivals Camping music festivals are growing more popular each year; however, porta potties and restrooms are the most miserable part of the experience. Especially by the final day or towards the end of the night when the lines grow long and smell becomes unbearable. Skip the long lines and disgusting smell by bringing TravelJohn products. You will be able to spend more of your time dancing and singing along with your favorite artists and friends.

Disposable Urinal Bags

For Men , women, and children

COMPACT SIZE

EASY TO USE

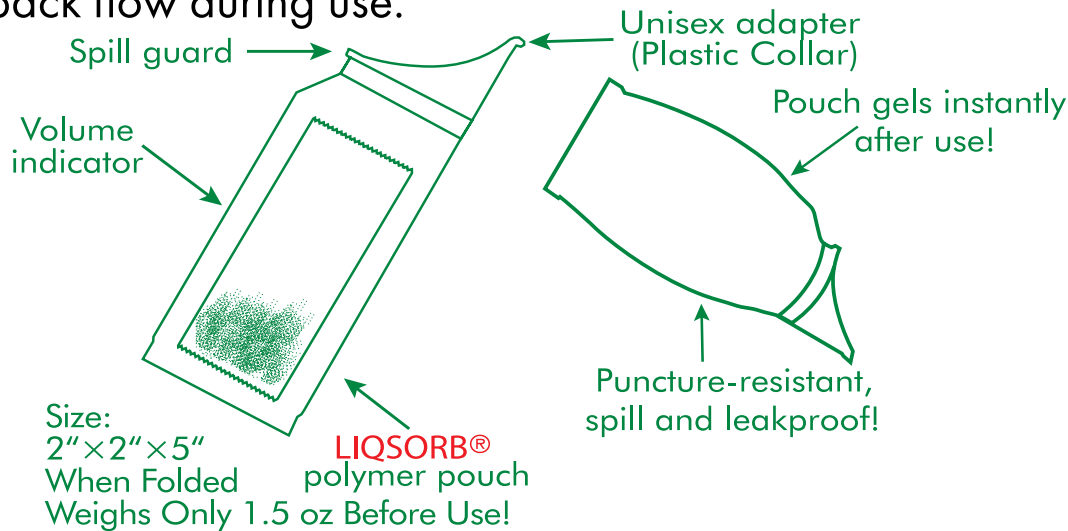

LEAKPROOF,
SECURE HANDLING

SIMPLE,
SAFE DISPOSAL

TravelJohn™ disposable urinal bags are the convenient, unisexed, sanitary, personal urinals containing LIQSORB®, the key ingredient that makes this work. LIQSORB® is a polymer substance that immobilizes bacterial growth by quickly absorbing liquid waste and turning it into an odorless, spill-proof gel that is non-toxic and waste disposal safe. The unisex adapter makes it easy for anyone to use while sitting (providing there is the use of gravity with an unobstructed, free-flowing opening) or standing, and a spill guard to prevent back flow during use.

Leakproof, Hygienic, Odorless
No clean up & Simply throw away!
